Extract from act of Congress of February 20, 1907, creating and defining the duties of the Immigration Commission.

That a commission is hereby created, consisting of three Senators, to be appointed by the President of the Senate, and three Members of the House of Representatives, to be appointed by the Speaker of the House of Representatives, and three persons to be appointed by the President of the United States. Said commission shall make full inquiry, examination, and investigation, by subcommittee or otherwise, into the subject of immigration. For the purpose of said inquiry, examination, and investigation said commission is authorized to send for persons and papers, make all necessary travel, either in the United States or any foreign country, and, through the chairman of the commission, or any member thereof, to administer oaths and to examine witnesses and papers respecting all matters pertaining to the subject, and to employ necessary clerical and other assistance. Said commission shall report to Congress the conclusions reached by it, and make such recommendations as in its judgment may seem proper. Such sums of money as may be necessary for the said inquiry, examination, and investigation are hereby appropriated and authorized to be paid out of the "immigrant fund" on the certificate of the chairman of said commission, including all expenses of the commissioners, and a reasonable compensation, to be fixed by the President of the United States, for those members of the commission who are not Members of Congress; * * * .

[a] Died February 20, 1908.

GENERAL TABLES.

PRINCIPAL BRANCHES OF MINING AND MANUFACTURING.
SIXTEEN DIVERSIFIED INDUSTRIES.
APPENDIX.

GENERAL EXPLANATION OF TABLES.

Persons of native birth have been divided into two general groups and further subdivided under each of the two, as follows:

1. *Native-born of native father.*

Persons under this group are classified as White, Negro, Indian, Chinese, Hindu, Japanese, and Korean.

2. *Native-born of foreign father.*

Persons under this group are classified according to race of father in all tables where the data were secured for households, and according to country of birth of father in all tables where the data were secured for employees. Where classification is by race of father the classification used for several years by the United States Bureau of Immigration and Naturalization is followed.

Persons of foreign birth are classified according to race (or people). The classification of the United States Bureau of Immigration and Naturalization is followed.

In the study of households information is presented—

1. By general nativity and race of the "individual" in all tables which show facts which are personal in their nature, such as English speaking, occupation, or conjugal condition.

2. By general nativity and race of "head of family" in tables concerned with family matters—for example, family income.

3. By general nativity and race of "head of household" in all tables dealing with living conditions, among which are tables showing the composition of the household and the number of persons per room and per sleeping room. The distinction which has been made throughout this study between "family" and "household" is dependent upon the use of the term "apartment."

An "apartment" is a room or rooms within which all the usual daily processes of living, namely, cooking, eating, and sleeping, are carried on by the occupants. According to this definition an apartment may be, for example, a whole house; or it may be a single room of what was originally intended as an apartment; or it may be a corner of a wareroom or the back of a storeroom partitioned off and set aside for household uses. Two or more groups of occupants with distinctly separate money interests frequently rent a number of rooms jointly, occupying the kitchen, or kitchen and living room. Under these conditions neither the rooms used by the one group of occupants nor those used by the other can be considered an apartment, since the room used in common must in such case be considered a room in each apartment and thus be counted twice. Where these conditions have been encountered the entire number of rooms has been considered one apartment.

The "household" includes all persons living within an apartment without regard to the relationships which exist among them. The household may consist of one or more families with or without boarders or lodgers; or it may consist of a group of persons living together, no family included; or it may consist of various combinations of families, "groups," and boarders and lodgers.

The term "family" as used throughout these tables refers in general to the immediate family composed of husband, wife, and children. Groups of persons among whom none of these relations exist are not considered families. Households in which complicated relationships exist have been resolved into the component immediate families. Remnants of families maintaining a home are considered families when either husband or wife is present.

In the "selection of families" for the compilation of data concerning family income the following classes were omitted:

1. Families established less than one year.
2. Families living two or more per household under complicated financial arrangements, so that exact income from boarders or other sources within the household is uncertain.
3. Families with earnings or contributions representing entire earnings, or members who are profit earners or whose net earnings are for any other reason uncertain. That part of the income in this study represented by earnings is net.

All tables headed "Study of households" are based on information from the schedule which was filled out for certain selected households in each of the several communities. Names and addresses were secured of employees in a given industry who were heads of households; and for each such household a schedule was filled out by an agent of this Commission, who visited the apartment and secured detailed information, so far as possible, for every occupant, as well as data in regard to family and household organization and status at the time of the visit.

The general tables headed "Study of employees" present data from the schedule relating only to the individual employee. This schedule was filled out by the employee himself or by some one detailed by the employer to the task, to whom the employee furnished data.

.....

The instructions observed by agents in securing family or household schedules were as follows:

Instructions in detail.

1. *Name of head:* Enter the full name of the head of family, giving Christian name first.

If there is a husband in the family, he is *always* to be reported as the head. If the husband is dead and the wife living, give the name of the wife, unless it appears quite clearly that the wife is only a dependent and the real head of the family is some one of the children, in which case the name of such child should appear under inquiry 1.

When a wife, living with her husband, conducts a boarding or rooming group, enter the husband as head. The fact that the wife conducts the group should be entered under inquiry 21, and also under "work done," inquiry 73.

2. *State:* Enter the name of the State.

3. *City:* Enter the name of the city.

4. *Street and number:* Enter the name of the street and number of the house being canvassed. In the congestion study, where a corner house, which has a number on a cross street, is being canvassed, state the fact plainly in a note in order that the schedule may be tabulated with the schedules for the street which is being studied. Such corner house should be canvassed unless it is of a different character from the block being studied.

5. *House:* Enter a check above the appropriate letter to indicate whether or not the house is front, rear, or second rear. This refers to the house as a whole and not to the particular apartment occupied. A "front" house fronts on a street. A "rear" house has another house between it and the front street. A "second rear" house has two houses between it and the front street.

Enter above the word "Colony," "Y" or "N" to indicate whether or not the family lives in a foreign colony. By "foreign colony" is meant an aggregation of families or individuals of the same race living in close proximity to one another.

Enter a check above the appropriate inquiry indicating whether the house is detached, semidetached, or in block. By "detached" is meant a house having clear space on both sides between it and the nearest house; by "semidetached" is meant

a house having a party wall with a house on one side only; by "in block" is meant a house having party walls with a house on each side. Where there are individual walls without clear air space, they should be considered as party walls for the purposes of this investigation.

Enter above the word "Kind" to indicate the material of which the house is built: "F" for frame, "B" for brick, "S" for stone, etc.

Enter above the words "No. apts." the number of apartments in the house. By "apartment" is meant any house or suite of rooms constructed for the use of one family. For a house constructed for one family enter "1" above the words "No. of apts." Where former dwellings have been remodeled to accommodate more than one family, the present and not the past construction should be taken into account.

Enter above the words "No. of fams." the number of independent families in the house having their own table.

6. *Type:* This inquiry is used only in the congestion study. A check should be entered above "O. L." if the house is what is known as an old law house, or above "N. L." if it comes within the new law. Specific instructions for each city in which congestion is studied will be issued, by the agent in charge, to indicate what type of houses shall be classed as "old law," and what as "new law" houses.

7. *Apartments:* This inquiry is intended chiefly to identify the apartment in which the family lives in case the agent is obliged to make a second visit. Enter above the word "Floor" the number of the floor as 1, 2, 3. Check above the word "Front" if the apartment is in the front of the building and above the word "Rear" if in the rear of the building. Enter "whole" where one family occupies the entire house.

8. *Repairs of apartment:* Check above the letter "G" if the apartment is in good repair; above "F" if in fair repair; above "B" if in bad repair, and above "V" if in very bad repair.

In determining repair of apartment, the following general rules have been used by the agents studying congestion:

"Good: (1) Flooring unbroken; (2) walls and ceilings without bad cracks or breaks and paint and paper in good condition; (3) windows and door casings unbroken; (4) woodwork unbroken; (5) water supply and toilet in good working order.

"Fair: (1) Flooring unbroken; (2) walls and ceilings without breaks or cracks, but paint or paper broken or torn in places; (3) woodwork somewhat battered; (4) water supply and toilet in order.

"Bad: (1) Breaks in flooring; (2) cracks or holes in ceilings or walls; (3) paint or papering old, broken, and torn; (4) windows and door casings battered and broken; (5) woodwork in dilapidated condition; (6) water supply and toilet out of order.

"Very bad: Same as 'Bad'—but after the process of dilapidation has gone still further and the conditions are well nigh intolerable.

"All the elements enumerated for each degree of repair need not necessarily be present. The presence of one or two of the bad conditions is enough to class the dwelling as being in bad repair. The definitions indicate the lines along which the degree of repair may be determined. The degree of repair should be given for each apartment and in cases where the halls and public parts of the house differ from the apartment in the degree of repair, a note to that effect should be made."

9. *Light:* Indicate the kind of light used: "O" for oil; "G" for gas; "E" for electricity. If oil is used, indicate in note whether gas or electricity is available in the house.

10. *Heat:* Indicate the kind of heat used in the apartment: Enter "W" for wood stove; "C" for coal stove; "H" for hot air; "H. W." for hot water; "S" for steam; "G" for gas, to be entered only when gas is used to produce *direct* heat and not when used to produce hot air, hot water, or steam.

11. *Water supply:* Above the word "Kind," enter "P. I." if water is supplied by pipes in the house; "P. O." if water is obtained from pipes outside of the house; "W" if water is obtained from a well not connected with the house by pipes; "S" for spring not connected with the house by pipes. If water is not supplied by pipes in the house, indicate in note whether this system is available in the street.

If the water supply is used by only one family or boarding group, enter check above the word "Sep." If used by more than one family or group, enter the number of families or groups above the words "No. Fams."

12. *Toilet:* Enter above the word "Kind" "F" for flush, if there is water service; "D" for dry, if no water service. In addition add "H" if toilet is in the house and "Y" if toilet is in the yard. If these letters do not apply, explain conditions fully in a note. If dry closet is used, indicate in note whether water supply is available for use of flush closet.

If toilet is used by one family or group only, enter check above "Sep." If used by more than one family or group, enter the number above the words "No. Fams."

13. *Bath:* If no bath is available for the family or group, write the word "None" following the word "Bath." If there is no bath, indicate in note whether water supply is available for use of bath.

If a bath is available and is used by one family or group, put a check above the word "Sep." If used by more than one family or group, enter the number above the words "No. Fams."

14. *Care of apartment*: Enter a check above the letter which indicates the condition of the apartment. In order that the various reports on this inquiry may be compared, the following general rules have been used by the agents studying congestion. The agent should take into consideration, however, the time of day at which the visit is made, and also whether it is wash day, house-cleaning time, etc.

"Good: Both clean and tidy; no dirt on the floors, chairs, tables, etc., and articles not strewn about, but kept in place.

"Fair: Much untidiness without dirt, or dirt on table, in the middle of the floor, or about stove, but not in corners.

"Bad: Dirt in corners. Articles in rooms or places where they clearly are not in place and are in the way. Bedrooms in disorder and bed clothing soiled.

"Very bad: Same as 'Bad,' only that symptoms are more extreme. Frequently indicated by bad odors."

15. *Rent:* Enter the rent per month for the apartment. If the home is owned, write the word "Own" in the space.

Make a note to this inquiry where there is a ground lease or when property owned has not been entirely paid for and payments are still being made. State the amount paid for such purposes per month or year. Payments on property should be considered as savings and so entered under inquiry 103.

16. *Rooms:* Enter above the word "Total" the whole number of rooms in the apartment occupied by the family or group, not including closets and bath rooms. If one or more rooms are rented to another family who live entirely separate, make notes to this effect and enter income from same under "Other income," inquiry 87.

If the total number of rooms are not accounted for under inquiries 17, 19, and 20, a note should be entered, stating what use is made of any other room or rooms not accounted for.

Enter above the word "Interior" the number of rooms used as sleeping or living rooms which either have no outside light, or have insufficient light from an air shaft.

17. *Total number of sleeping rooms:* Enter the total number of rooms used for sleeping purposes, whether by members of the family or by boarders or lodgers. Endeavor to ascertain what rooms are actually slept in, no matter what their designation may be.

18. *Number of rooms occupied by lodgers:* Enter above the word "Sep." the number of rooms used exclusively by lodgers.

Enter above the words "With family" the number of rooms which are occupied jointly by lodgers and the family or any member of the family as sleeping rooms.

19. *Living-room arrangements:* State whether or not the family has a room which is used as a separate living room, or whether a kitchen, dining, or sleeping room is used as a living room.

If in addition to the living room there is a separate room used as a parlor, state that fact.

20. *Dining and kitchen arrangements:* State whether the dining room is separate from the kitchen; if either room is used for any other purpose, state the use.

21. *Domestic economy:* A brief statement of the sources from which the income is derived is desired. For example, if the father of the family is the sole source of support, enter "Head sole support;" if the head of the family is a widow supported by one or more wage-earning children, state that fact, etc. If more than a trifling part of the income is derived from other sources than earnings, note the fact. In all cases where children are wage-earners, state whether they contribute the whole or only a part of their earnings to the family fund.

Where a boarding and rooming group is being studied, state specifically the manner in which the group is organized and financed. For example, state whether expenses are divided equally among the members, whether the group is conducted as a business enterprise for profit, whether some member manages the group in return for his own board and lodging, etc.

Where the boarding and rooming group supplement is used, no answer should be entered to inquiry 21, but a full statement should be entered under inquiry 225.

22 to 29. *Relating solely to the family:* These inquiries relate solely to the family; that is, to the head of the family and wife and their children.

These inquiries would apply to the boarding and rooming groups only where the head of the group is married or a widower or widow with children.

22. *Married, where and years:* Enter country of marriage of head to present wife and the number of years they have been married.

23. *Children not at home, number:* Enter the number of children *not* living at home.

24. *Children not at home, sex:* Enter the sex of each child *not* living at home.

25. *Children not at home, age:* Enter the age of each child *not* living at home.

26. *Children not at home, where:* Enter the place of residence of each child *not* living at home. Enter State if in the United States, and country if abroad.

27. *Children not at home, conjugal condition:* Enter the conjugal condition ("S" for single, "M" for married, "W" for widowed, "D" for divorced) of each child *not* living at home.

28. *Children not at home, race of husband or wife if married in the United States:* For each married child *not* living at home, enter the race of husband or wife if the marriage took place in the United States. (For detailed instructions as to race, see inquiry 43.)

29. *Children not at home, occupation:* Enter the present occupation of each child *not* living at home.

30. *Name:* Enter the name of each individual. This, however, is largely for the convenience of the agent, as throughout the agent's visit the person being interviewed will generally refer to other members of the household by name. The first name of the head, wife, and each of the children will be sufficient, while it will be desirable to enter the full name of other members of the household.

31. *Informant:* Place a check opposite the name of each individual who furnished information to the agent.

32. *Relation to head:* Enter the relationship of each member of the household to the head of the family, or to the head of the boarding and rooming group, as wife, son, daughter, mother, father-in-law, etc.

For those not related to head, enter relationship to family, "B" for boarder, "L" for lodger, "B. L." for boarder and lodger, "D" for dependent, etc.

If a child or other relative pays into the family fund an amount in lieu of board, or lodging, or both, enter the relationship in this column, but on the margin of the schedule preceding inquiry 30 enter "B" for boarder, "L" for lodger, "B. L." for boarder and lodger.

33. *Sex:* Enter "M" for male, and "F" for female.

34. *Age:* Enter the age at last birthday of each member of the family. Approximate ages of others than members of immediate family will be sufficient. For those under one year, enter age in twelfths of a year, as 7–12.

35. *Conjugal condition:* Enter "S" for single, "M" for married, "W" for widowed, and "D" for divorced.

36. *Residence of wife or husband:* Where any member is married and the wife or husband is living elsewhere in the United States, enter State of residence; or if abroad, country of residence.

37 to 40. *Number of children:* Entry should not be made for the head and wife. For all others who have children, enter the number of children 14 and over, and also the number under 14 in the United States and abroad.

41. *Country of birth:* Enter for each member of the household the country of birth.

42. *State, province, or city of birth:* If the country of birth is the United States, enter the State of birth.

For persons of foreign birth enter province if that can be ascertained in preference to city. The following is a list of the provinces of the most important countries from which immigrants come:

43. *Race:* Enter the race of each member of the family.

Enter "American" only for those whose father was born in the United States and who do not belong to one of the following races: American Indian, Chinese, Hindoo, Japanese, Korean, Negro, which under all circumstances should be designated by race.

For persons born in the United States of foreign father enter race of father with word "American," as "German-American," "Hebrew-American," Croatian-American," etc. In case of mixed parentage, follow race of *father*.

For persons born abroad enter race according to the list which follows. This list shows the countries from which most immigrants come and the principal races coming from each country. The list is not complete in either respect, but it is sufficiently comprehensive to guide the agent. *Other countries* and *other races* should be enumerated when such other countries and races are reported.

44 and 45. *Birthplace of father and mother:* These inquiries apply to native-born only. These inquiries need not be filled out for children of head and wife for whom information is available under inquiry 41.

For all other native-born members of the household, enter country of birth of father and of mother.

46. *Years since first arrival in United States:* For each foreign-born member of the family, enter the total number of years since first arrival in the United States. This will include time spent in visiting abroad.

The total number of years since first arrival in the United States, after deductions for prolonged visits abroad, should equal the total number of years in city and years elsewhere in the United States in columns 47 and 48.

For each native-born member of the family, enter the age already ascertained under inquiry 34.

47. *Residence in city or agricultural locality:* For each member of the household, enter the length of residence in the city or agricultural community.

48. *Residence elsewhere in United States:* For each member of the household, enter the length of residence in the United States elsewhere than in the city or agricultural locality under consideration.

49. *Residence in neighborhood:* This inquiry is used only in the congestion study. For each member of the household, enter the length of residence in the neighborhood.

50. *Residence in apartment:* This inquiry is used only in the congestion study. For each member of the household, enter the length of residence in the apartment.

51. *Visits abroad, number:* Enter for each member the number of visits abroad.

52. *Visits abroad, duration:* Enter the duration of each visit abroad recorded under inquiry 51.

53. *Permanent home in the United States:* The actual intention rather than the desire should be obtained. Enter "Y" if the intention is to remain permanently in the United States, "N" if the intention is to make the permanent home elsewhere, "D" if intention is doubtful.

Use a brace for the family if the foreign members seem to be of the same opinion relative to their permanent home, and report separately for the other members of the household.

54. *Citizenship:* For each foreign-born male 21 years of age and over, enter "A" for alien, "F" if first naturalization papers have been taken out, "S" if second or final naturalization papers have been taken out.

55. *English spoken:* Enter "Y" for each member who speaks English, and "N" for each member who does not speak English. An adult who can not carry on a conversation in English should be entered "N." This inquiry should be answered for all children who can talk.

56. *English read:* This inquiry should be answered for all members ten years of age or over. Enter "Y" for each member who reads English, and "N" for each member who does not read English.

57. *English written:* This inquiry should be answered for all members ten years of age or over. Enter "Y" for each member who writes English, and "N" for each member who does not write English.

58, 59, and 60. *Native language:* By native language is meant the mother tongue of the head of the family so far as the native-born children of the family are concerned. For foreign-born members of the family the native language is the language spoken in the foreign home. Wherever English is the native tongue, write the word "English" across these three columns.

58. *Native language spoken:* Enter in this column for each of the native-born children of the family, "Y" for those who speak the mother tongue of the head of the family, and "N" for each who does not speak the mother tongue of the head of the family. This inquiry should be answered for all children who can talk.

So far as all foreign-born members of the household, including boarders, lodgers, etc., are concerned, the test should be whether they can speak their mother tongue; so far as all native-born, whether they can speak the mother tongue of their father.

59. *Native language read:* This inquiry should be answered for all members ten years of age or over. Enter in this column for each of the native-born children of the family, "Y" for those who read the mother tongue of the head of the family, and "N" for each who does not read the mother tongue of the head of the family.

So far as all foreign-born members of the household, including boarders, lodgers, etc., are concerned, the test should be whether they can read their mother tongue; so far as all native-born, whether they can read the mother tongue of their father.

60. *Native language written:* This inquiry should be answered for all members ten years of age or over. Enter in this column for each of the native-born children of the family, "Y" for those who write the mother tongue of the head of the family, and "N" for each who does not write the mother tongue of the head of the family.

So far as all foreign-born members of the household, including boarders, lodgers, etc., are concerned, the test should be whether they can write their mother tongue; so far as all native-born whether they can write the mother tongue of their father.

61. *Schooling in the United States, kind:* Enter for each member who has attended school in the United States the kind of school attended, "Pub." for public, "Priv." for private, "Par." for parochial, "Cor." for correspondence. If correspondence course is being pursued, enter in a note the character of course pursued.

62. *Schooling, months in day school:* Enter for each member who attended day school in the United States during the last school year the number of months in day school during that period.

63. *Schooling, months in night school:* Enter for each member who attended night school in the United States during the last school year the number of months in night school during that period.

64. *Total years schooling in United States:* Enter for each member who has attended school in the United States the total school years attended in the United States.

65. *At school abroad:* For each foreign-born member, enter "Y" for those who attended school abroad, and "N" for those who did not attend school abroad.

66. *Language spoken at home:* State the language used in the home. Usually a brace can be used for the whole family.

67. *Language spoken at work:* State for each person at work the language used while at work.

68. *Language spoken at school:* State for each person in school the language in which the exercises at the school attended are conducted.

Answer for every person who attended school at anytime during the last school year.

69. *Language spoken at church:* State the language in which the sermons are delivered at the church attended. Ordinarily a brace can be used for all or several members of the family.

70 to 72. *Newspapers and periodicals taken:* Enter the name, the language, and place of publication of newspapers and other periodicals taken by each member of the family. Ordinarily a brace can be used for the members of the immediate family.

If a newspaper is printed in a language that uses the same alphabet as the English, enter the exact title; but if the alphabet is different from the English, enter the translation.

73. *Work done:* Enter for each member of the household or group the work done at present. Make certain that your entry, in conjunction with 74, is specific enough to show the exact nature of the work which each person is performing. Special attention is called to this point because of the difficulty in classifying occupations.

For any person who is idle at the time of agent's visit but who was employed at any time during the past year, enter such occupation under this inquiry.

For the wife who does nothing but the usual housework, enter "Housewife."

For the children in school and not employed enter "At school." For the children who attended school and are employed before and after school hours or during vacation, enter the occupation, and by use of a note state that they are also at school and the period for which they are employed; that is, whether during vacation, or before and after school hours. For the children who are not in school and are not employed, enter "At home."

For any dependents who are not employed enter "At home."

74. *Industry:* Specify for each breadwinner the industry in which engaged, unless the industry is shown beyond doubt by a description of the work done.

75. *Number of years in present occupation:* Enter for each breadwinner the length of time engaged in the occupation shown under column 73. That time should be the length of time continuously in present *occupation* without reference to inquiries 76, 78, 79, and 80.

No entry is required for persons reported in column 73 as "Housewife," "At home," or "At school."

76. *Name of employer, or business status:* For each breadwinner who is working for some one else, enter the name of the person, firm, or corporation by which employed at the time of the agent's visit.

If working on own account or engaged in independent business, enter "For self."

If a wage-earner is out of employment at present, enter "Out of work."

No entry is required in this column for persons reported as "Housewife," "At home," or "At school" in column 73.

77. *Occupation in apartment:* If any occupation other than housework is carried on in the home, enter above the word "Kind" a description of the work done. If the work is regular, enter a check above the word "Regular;" and if the work is irregular, write the word "No" above the word "Regular." Indicate by letter what persons are engaged in the occupation. Enter the total earnings per day, week, month, or year.

78 and 79. *Earnings:* Enter for each member employed the earnings per hour, day, week, month, or year.

Note if board, lodging, etc., are furnished in addition to the wage. "B" may be used to indicate board; "L" lodging; "B. L.," board and lodging.

For those in business, enter the *net profits* arising from the business and not gross receipts.

Omit from the *Agricultural Schedules*, except for such members of the family as are employed for wages, either regularly or occasionally.

80. *Hours per week:* For each member employed, enter the hours of work per week. The hours reported should be the normal working week, that is, the full time hours in the occupation.

If the person has worked over time or short time, state specifically in a note.

Omit from the *Agricultural Schedules*, except for such members of the family as are employed for wages, either regularly or occasionally.

81. *Months worked past year:* Enter for each member employed at any time during the past year the months, computed on full time, worked during the year.

Omit from the *Agricultural Schedules*, except for such members of the family as are employed for wages, either regularly or occasionally.

82. *Cause of lost time or low earnings:* In case any individual is reported as having worked less than 12 months during the past year, or if the earnings of any individual

are much below what would be expected for a person of that age and occupation, enter in this column the cause of lost time or explanation of low earnings, as illness, serious accidents, business depression, seasonal depression, vacation without pay, etc.

For those in occupations in which less than 12 months in the year are regularly worked, put such entries as follows: For teachers, "Full school year;" for mine employees, "Full colliery time," etc.

83 to 106. This group of questions is intended to give a summary statement of the income and expenditures of the family or individual for the whole of the past year irrespective of whether or not the occupation has changed during that time.

83. *Approximate earnings:* Enter for each member employed at any time during the past year the approximate earnings during the entire year. Special care should be used to secure reliable data on this point, by considering earnings, time worked, different rates received during the whole year, etc.

If the amount reported under this inquiry is not consistent with the earnings as reported under inquiries 78 and 79 multiplied by the time worked as reported under inquiry 81, enter a note explaining the discrepancy, except so far as it may be accounted for under inquiry 82.

Wages reported by the day should be computed on the basis of 26 days per month if the person works six days per week, and on the basis of 30 days per month if the person works seven days per week.

Wages reported by the week should be computed on the basis of four and one-third weeks per month.

"Past year" means the year ending at the time of the agent's visit.

Omit from the *Agricultural Schedules*, except for such members of family as are employed for wages either regularly or occasionally.

84, 85, and 86. *Contributed to family fund:* Under these inquiries should be brought out the amount of money contributed to the family fund by the various members of the family—children, boarders, lodgers, relatives, etc.

For the purposes of this investigation, the whole of the husband's income and also the whole of the wife's income are considered as part of the family fund.

For members of the immediate family who contribute all of their income to family fund, inquiries 84 and 85 should be left blank.

The earnings of the children may or may not go into the family fund. If such earnings do go into the family fund, the total amount may be entered under inquiry 86. If, on the other hand, a child makes a payment of a certain amount per week or month, enter under inquiry 84 the amount, under inquiry 85 the period, as week or month, and under inquiry 86 the total contributed during the year.

Relatives living in the family may contribute a part or the whole of their income, and the proper amount should be entered under these inquiries.

For boarders or lodgers, the amount paid for board or lodging, or both, per week or month should be entered and also the total amount for the year. If a boarder or lodger has been in family less than one year, that fact should be taken into consideration when answering inquiry 86. In such cases indicate by the use of a note the length of time such boarder or lodger has been with the family. Wherever family had other boarders or lodgers during the year than those named in the family at present, the income received from them should be entered under inquiries 87 and 88.

If the amount reported in inquiry 86 is not consistent with the amounts reported under inquiries 84 and 85, explain discrepancy in note.

To summarize, column 86 should include the earnings of the husband and the wife, all money contributed to the family fund out of the earnings of children and other relatives at home, and the amount paid by boarders and lodgers now with the family. If a member of the household who reports earnings, contributes nothing to the family fund, write "None" in column 86.

87 and 88. *Other income:* Enter the amount and source of any income of the family, or any members thereof, during the past year, which has not been indicated under inquiries 83 to 86. Ordinarily a brace may be used for the immediate family.

"Other income" may be rent from property; money contributed by children away from home; assistance from relatives or friends; payments received from insurance or benefit companies; assistance from charitable associations, etc.

"Other income" may also be the product (either consumed or sold) from the garden, poultry, or the dairy. In such cases, the net value should be entered; that is, the market value, less the cost of feed, seed supplies, etc. Omit this item from "Other income" on *Agricultural Schedules*, as such can be better shown on the *Agricultural Supplement*.

"Other income" may also be rent from property. In such cases, state in a note the amount received as rent and the amount paid out as interest on indebtedness on the property producing the rent and also as taxes and insurance; then enter net income

under inquiry 87. Where payments on the indebtedness consist in part of interest and in part of installments on the purchase price, that fact should be stated in a note.

"Other income" may also be payments received from boarders or lodgers not now with the family.

89. *Total income:* This inquiry should be answered for each individual who has an income and should be the total of inquiries 83 and 87.

The family income will be entered in the office before tabulation.

Omit from the *Agricultural Schedules* so far as any income from the farm is concerned.

90 and 91. *Money sent abroad:* Enter for each member the amount of money sent abroad during the past year, and the purpose for which money was sent; whether to support wife, children, father, mother, etc., or for investment, and if for investment the nature of the investment, if possible.

92 to 96, 101 and 102. These inquiries relating to expenditures during the past year should be answered wherever the agent can secure the information without serious friction and wherever data can, in the agent's opinion, be secured with a normal degree of accuracy. Wherever omitted for either of the above reasons the agent should enter "Passed."

92 and 93. *Cost of food and drink purchased for home consumption:* Enter the amount paid out for food and drink purchased per week, month, or year, using the period for which the most reliable figures can be secured. The frequency of wage payments to head, or to boarders, or lodgers, usually determines the period for which this expense can best be determined.

Indicate by note the estimated value of food and drink raised or produced for home consumption.

Make definite, by use of a bracket or otherwise, for just what persons the amount given covers cost of food and drink.

94 and 95. *Cost of lodging, cooking, and washing:* These inquiries apply to boarders or lodgers in boarding and rooming groups and particularly to those houses where the "boarding boss" system is followed, but do not apply to families unless one or more members pay separately for these items as sometimes occurs.

Enter the amount paid per week, month, or year for lodging, cooking, and washing by each individual. In case the heading does not correctly enumerate the items furnished boarders or lodgers in boarding and rooming groups, indicate by note just what items are furnished.

96. *Cost of clothing past year:* Enter for each member of the household the amount spent for clothing during the *past year*.

97. *Number omitted from schedule owing to a change made on proof.*

98 to 100. *Transportation:* Omit from the *Agricultural Schedules*, except for such members of the family as are employed for wages either regularly or occasionally.

98. *Transportation, kind:* For each member employed, enter the means of going to and from work; as "walk," "street railway," "steam railway," etc.

99. *Transportation, cost:* Enter for each person employed the cost per day for transportation to and from work.

100. *Transportation, minutes per day:* Enter for each person employed the minutes per day required to go to and from work.

101. *Other expenditures past year:* Enter for each member of the household the amount spent during the *past year* for items other than those enumerated under inquiries 15, 92, 94, 96, and 99.

102. *Total expenditures past year:* Enter for each member of the household the total amount of expenditures during the *past year*. This amount should be the total for the entire year of the items included under inquiries 15, 92, 94, 96, 99, and 101.

103. *Money saved, exclusive of money sent abroad:* Enter the approximate money savings, if any, during the *past year*. Savings should include money deposited in bank, money invested in home, and money invested otherwise. Usually a brace can be used for the members of the immediate family. Report separately for all others.

Omit from *Agricultural Schedules*, except in cases where savings can be reduced to terms of money.

104. *Disposition of savings:* State what disposition was made of any savings entered under inquiry 103.

105. *Approximate deficit:* Enter the approximate deficit, if any, during the *past year*. By "deficit past year" is meant the amount by which the earnings and other income the *past year* fell short of meeting the current expenses of the *past year*. Usually a brace can be used for the members of the immediate family. Report separately for all others.

Omit from *Agricultural Schedules*, except where deficit can be reduced to terms of money.

106. *Deficit, how met:* State how any deficit noted under inquiry 105 was met, as "from savings," "borrowed money," "credit from store," "credit from boarding boss," etc.

107 and 108. *Approximate value of property owned in the United States and the amount of encumbrance on such property:* Enter the approximate value of property (not including furniture, clothing, etc.), owned in the United States and also the amount of encumbrance on same. Use a brace for the immediate family and report separately for each of the other members of the household.

109. *Money on landing:* Enter for the foreign-born members the amount of money possessed on landing. Where the family came together, a brace should be used and the amount entered for the family as a whole, but if the family came in two or more groups, data for each group should be given.

110 to 112. *Affiliation with organizations:* Under these inquiries the names of the organizations with which each member is affiliated should be entered. If the feature of any organization is sick, accident, or life insurance, enter under the proper inquiry here and also under the proper inquiries 113 to 115, using a cross reference note.

110. *Organizations, foreign:* Give the names of foreign organizations with which each of the members is affiliated.

By foreign organization is meant any organization the membership of which is composed wholly, or almost wholly, of members of foreign races, except such organizations as are entered in column 112.

Membership in churches is not to be considered as affiliation with an organization, but membership in a society within a church which complies with the above definition is to be entered here.

111. *Organizations, American fraternal:* Give the names of American fraternal organizations with which each of the members is affiliated.

112. *Organizations, trade unions:* Give the names of trade unions with which each of the members is affiliated.

113 to 115. *Insurance:* Cross references should be made when necessary between these inquiries and inquiries 110 to 112.

113. *Insurance, life:* Enter for each person "Y" if life insurance is carried at the expense of the insured person or another member of the family; "E" if carried at the expense of the employer; "N" if no life insurance is carried.

114. *Insurance, sick:* Enter for each person "Y" if sick insurance is carried at the expense of the insured person or another member of the family; "E" if carried at the expense of the employer; "N" if no sick insurance is carried.

115. *Insurance, accident:* Enter for each person "Y" if accident insurance is carried at the expense of the insured person or another member of the family; "E" if carried at the expense of the employer; "N" if no accident insurance is carried.

116. *Insurance, fire:* This inquiry applies to the family as a whole, and a brace should be used. Enter "Y" if fire insurance is carried, "N" if no fire insurance is carried.

117 and 118. *Condition in the United States, better or worse:* These inquiries apply to foreign-born only who are eighteen years of age or over. In many cases a brace can be used for the immediate family, but individual reports should be secured for other members of the household.

Enter the immigrant's opinion as to how his condition—economic and political—in the United States compares with his condition in his native country. Enter "B" for better, "W" for worse, "S" for same.

119. *Occupation or trade abroad:* Enter for each foreign-born member his or her occupation before coming to the United States. Such occupation should be the one at which he or she was engaged immediately preceding emigration, unless such occupation was simply a temporary one differing from the usual occupation.

For one who worked on a farm for wages enter under inquiry 119 "Farm laborer," and under inquiry 120 "Y." For one who worked on his own farm, enter under inquiry 119 "Farming for self," and under inquiry 120 "N." For wife who worked on her husband's farm, enter under inquiry 119 "On husband's farm," and under inquiry 120 "N." For children who worked on the home farm and received no money wages, enter under inquiry 119 "On father's farm," and under inquiry 120 "N."

120. *For money wage:* For each foreign-born member for whom occupation or trade has been entered, enter "Y" if such work was done for money wage, or "N" if no wage was received.

121. *How was first work in United States secured:* State concisely how the first work in the United States was secured, as by personal application, through friends, through padrone, through employment agency, etc. Do *not* attempt to inquire into contracts made before landing. If necessary or advisable, make it clear that you are not inquiring about contract labor.

122 to 139. *Prior occupations in United States:* These inquiries are for the purpose of determining as nearly as possible the various occupations in which each person has been engaged, the places in which employed, and the length of time in each occupation.

The occupation should be entered in order, first occupation, second occupation, and so on up to present occupation, given under inquiry 73. Present occupation should not be reported under inquiries 122 to 139. Enter place or places where occupation referred to in the corresponding column was followed. Report city or State as the case seems to require, being careful that the location is specifically designated.

For foreign-born members, the *first* work secured in the United States should be entered under inquiry 122.

For native-born members, the *first* employment secured should be entered under that inquiry.

If more than six prior occupations are found, enter others in notes.

For foreign-born members, the agent is expected to see that the total number of years covered by the prior and present occupations is consistent with the total number of years spent in the United States.

For the purposes of this investigation, a person who is idle for some months remains during the idle period in the same occupation in which he was engaged immediately preceding the period of idleness.

140 to 143. *Reasons for coming:* These inquiries apply to foreign-born only, who are eighteen years of age or over. In many cases a brace can be used for the family, but individual reports should be secured for other members of the household.

State as concisely as possible the reason for leaving home country, the reason for coming to the United States, the reason for coming to the particular city or agricultural locality under consideration, and the reason for coming to the particular neighborhood.

144 to 145. *Attitude toward going to country:* So far as ascertainable, state the attitude of each member of the family 18 years of age or over toward moving to the country. Enter "F" for favorable and "O" for opposed. For those who are opposed to such a move, state as concisely as possible the reasons for such opposition. For those who are favorable to such a move, state what obstacles prevent their going.

146 to 149. *Employment of wife:* Enter the work done *for wages* or business in which wife was engaged before and after marriage, abroad and in the United States, and in all cases whether she worked regularly or only casually. Enter "Y" for regular and "C" for casual.

Employ term "Servant" where working as a domestic for wages or "Boarding-house keeper" where wife runs boarding house. Do *not* enter "Housewife" or "Housework" under these inquiries where wife simply does work at home not for wages. In such cases enter "None."

If under inquiry 120 the entry for the wife is "N," the entry should be "None" under inquiries 146 and 147. On the other hand, if "Y" is entered for the wife under inquiry 120, entries stating the occupation, etc., are necessary under inquiries 146 and 147.

150 to 152. *Attitude of women toward domestic service:* These inquiries should only be applied to unmarried women over 15 years of age who are seeking employment, or who are employed at work other than domestic service and are earning less than the prevailing rate for domestic service in that locality; in comparing earnings take into consideration the value of board, or board and room, received by those engaged in domestic service.

If in any case the agent thinks best not to ask this opinion, the question should be marked "Passed."

For each person answering this inquiry, enter "F" if favorable, "O" if opposed to domestic service. If opposed to enter such employment, state as concisely as possible the reason for such opposition.

153. *Remarks:* Enter under "Remarks" any matters which may be of interest and which have not been included under previous inquiries.

For the congestion study the agent should enter on detachable sheets any general impressions and ideas which her visit to the family or group has aroused, and keep such detachable sheets for her own use in preparing notes for the whole block.

In collecting material for the report on an entire block the following is of special value:

Is the block part of a foreign colony? If so, how large is the colony? What were the circumstances of its settlement?

What is the history of the settlement of this particular race in the neighborhood? Did it displace other races? Give names of races displaced and dates of their residence in neighborhood.

What were the economic and social reasons of selecting this neighborhood?

How did the block become congested? Has municipal administration helped or impeded the progress of congestion?

The account of the block should include a description of its boundaries as well as of the general character of the houses, the frequency of rear houses, the existence of alleys, etc. In addition to that, accounts of individual cases, not completely covered by schedules should be included in notes, giving family conditions which seem typical or very exceptional and which are indicative of local conditions, or reflections of foreign influences, or seem to be the resultant of racial characteristics.

EMPLOYERS OR ESTABLISHMENT SCHEDULES.

The Pay-Roll Schedule.

C. In securing data from the officials and records of industrial establishments two forms of schedules were prepared. The information called for by these schedules was supplemented, however, by considerable additional data bearing upon the economic effects of immigration. The formal schedules were as follows:

1. The pay-roll schedule, which was used to transcribe the pay rolls of industrial establishments, covering the following inquiries: (*a*) Occupation and race of employee; (*b*) sex; (*c*) age; (*d*) rate of pay; (*e*) time worked; (*f*) earnings; (*g*) deductions from earnings.

The instructions followed by the field agents in securing pay-roll schedules were as follows:

PAY ROLL KK.

Instructions in detail.

1. *Name of establishment:* Enter in full the name of the establishment.

2, 3, and 4. *Location of establishment:* Enter the State, city, and street and number.

5. *Industry:* Enter the industry in which the establishment is engaged. Do not confuse with the name of the establishment or of the department.

6. *Department:* Enter the name of the department, such as blast furnace, roller mill, weave room, etc. Begin each department on a new sheet.

7. *Period covered by pay roll:* Enter the dates indicating the period covered by the pay roll copied.

8. *Name of employee:* Enter the name of each employee as it appears upon the pay roll.

Sex: On the margin to the left of inquiry 8, enter the sex of each employee; enter "M" for male and "F" for female.

9. *Occupation:* Enter the occupation of each employee. Do not confuse occupation with the name of the department.

10. *Check or pay number:* Enter the check or pay number of each employee.

11. *Race:* Enter the race of each employee.

12. *Years in United States:* Enter for each employee the number of years in the United States.

13. *Approximate age:* Enter the approximate age of each employee.

14 and 15. *Rate of pay, time workers:* Enter for each employee the rate of pay and the unit for which payment of wages is made, as hour, day, week, etc.

16 and 17. *Hours of work:* Enter for each occupation the number of hours per day and per week normally worked and state in a note important variations. For columns 12 and 13, one entry to each occupation will usually suffice.

18 and 19. *Rate of pay, piece workers:* Enter for each piece worker the rate of pay and state clearly the unit for which payment of wages is made, as cut, side, hundred, ton, etc.

20. *Output of piece workers:* Enter for each employee on piece work the amount of work done for the period covered by the pay roll, as "100 tons," "500 yards," etc.

21. *Hours worked by piece workers:* Enter for each employee on piece work the number of hours worked during the period covered by the pay roll.

22. *Total earnings:* Enter total amount earned by each employee, whether on time work or on piece work or on both, during the period covered by the pay roll.

23. This space is left blank for the purpose of including any other items that may seem valuable to the agent in charge. It is designed to cover such items as deductions from the employees' earnings for rent, store accounts, money advanced, etc. Where deductions have been made, report for each employee the amount received, as well as total earnings, and itemized and total deductions. It may also be used to indicate kind of machines used, speed, and any other items to study efficiency of labor.

.....

The instructions for securing the information called for by the employer's or establishment schedule were as follows:

Instructions in detail.

The three unnumbered entries on the upper left-hand corner of the first page of the schedule are for the purpose of indicating the information secured from each establishment. Following "P. R.," the agent should indicate by "Yes" or "No" whether pay-roll schedules were secured from the establishment under consideration; indicate the pay-roll schedule secured by entering either "K" or "KK" immediately following "Yes" or "No." Following "No. I. S.," the agent should indicate the number of individual cards or G slips secured from the employees of the establishment. Following "No. F. S.," the agent should indicate the number of schedules (General Schedule H) secured from the employees of the establishment.

1. *Name of establishment:* Enter in full the name of the establishment.

2, 3, and 4. *Location of establishment:* Enter the State, city, and street and number.

5. *Industry:* Enter the industry in which the establishment is engaged. Do not confuse with the name of the establishment or of the department.

6. *Name and position of person who furnished information:* Omit. (See inquiry 18-*b*.)

7. *Occupations, races, wages:* This inquiry can be answered in full in only a comparatively few establishments. In order that the agent may secure this information, the pay roll or other record must show the race of each employee, or the person giving the information must have a knowledge of the races employed in each occupation. It is not expected, however, that the information secured will be more than approximately correct so far as numbers of employees are concerned.

If the agent finds it impossible to secure complete data for inquiry 7 from either the pay roll or an official of the company, individual cards or G slips will, if secured, furnish data except for columns *b* and *c*. Data for those columns should then be secured by the agent. If data for inquiry 7 are secured wholly (except *b* and *c*) from the individual cards, inquiries 7-*f* to 7-*n* need not be filled out. The best results will be obtained, however, if, in the selected establishments, the agent can secure data for inquiry 7 from the employer or from records, and use such data as a check on the employees' reports on individual cards.

The employer, superintendent, timekeeper, or other persons from whom information is obtained, frequently can not give the number of persons of each race and the number of persons under 16. Such information, as well as the rate of wages and hours, may well be checked with the individual cards taken. If the space provided on pages 1 and 2 is not adequate, use the additional sheets provided for that purpose.

In establishments for which pay roll K or KK is secured, inquiries 7-*d* to 7-*n* need not be filled out.

7-*a*. *Occupation and race:* Enter the occupation in this column and under each occupation enter the race or races of the employees. Each race should be given a line across the page. Do not confuse occupation with name of the department.

7-*b*. *Years each race has been employed:* Opposite each race under each occupation enter the years each race has been employed in that particular occupation.

7-*c*. *Race previously employed:* Enter opposite each race employed the race previously employed in that particular occupation.

7-*d* and 7-*e*. *Hours of work:* Enter for each occupation the number of hours per day and per week normally worked, and state in a note important variations from that standard. For columns *d* and *e*, one entry to each occupation will usually suffice.

7-*f*. *Men employed, number:* Enter the approximate number of men, 16 years of age and over, of each race employed in each occupation.

7-*g* and 7-*h*. *Men employed, wages:* Enter the prevailing rate of wages for men, 16 years of age and over, of each race in each occupation. Enter the unit of payment of wage, as hour, day, week, ton, etc. Where payment is by the piece, make clear just what unit is used, and in a note reduce the piece earnings to a time basis.

7-*i*. *Women employed, number:* Enter the approximate number of women, 16 years of age and over, of each race employed in each occupation,

7-*j* and 7-*k*. *Women employed, wages:* (See instructions for 7-*g* and 7-*h*.)

7-*l*. *Children under 16 employed, number:* Enter the approximate number of children under 16 years of age of each race employed in each occupation.

7-*m* and 7-*n*. *Children under 16 employed, wages:* (See instructions for 7-*g* and 7*h*.)

8. *Conditions of employment (other than wages and hours).*

8-*a*. *Regularity of work:* Indicate regularity of work and state what occupations furnish work for only a portion of the year and indicate the busy season, if any.

8-*b*. *Frequency of wage payments:* State the frequency of wage payments, as daily, weekly, every two weeks, monthly, etc.

8-*c*. *How paid:* State how wages are paid, whether in cash, store orders, checks, etc., and whether store orders and checks, if used, must be cashed at any particular place. State whether accepted only at a discount at other places. Also whether they are generally passed at a discount.

8-*d*. *Board, lodging, and houses furnished, terms, and description:* Indicate whether or not the company furnishes board, housing or lodging; if furnished, describe such, and indicate the cost to the employee. Also whether the employees are compelled to patronize the company in such matters. State whether the charge is greater or less than for similar accommodations by other landlords, or whether the accommodations are superior or inferior.

8-*e*. *Medical or hospital service furnished, cost and extent:* State whether or not medical or hospital service is furnished by the company; the cost to each employee, and the extent of such service. Also state whether the contributions to this fund are compulsory; state definitely whether a resident physician is furnished; the frequency of the visits of other physicians; whether employees must be in the employ of the company a certain length of time before they will receive medical or hospital treatment; and whether there is a limit to the time such treatment will be furnished employees who are ill or have been injured.

8-*f*. *Sanitary conditions:* Indicate as definitely as possible the sanitary conditions of the establishment.

8-*g*. *Special liability to accident or disease:* State whether in any of the occupations there is special liability to accident or disease. This will have to be determined largely from sources other than the employer. If employer has any statistical record, secure it for as long a period as possible.

8-*h*. *Company or commissary stores:* State whether company or commissary stores are conducted; also whether one of the conditions of employment is that the employees must patronize such stores, and, if so, whether each employee is required to trade a certain amount each week or month and state the amount; also whether other stores are available. Many company stores are not owned by the company in its corporate name, but are owned by individual members of the firm, and while such stores are not strictly company stores they are in reality such.

8-*i*. *Nature and extent of welfare work by employer:* Indicate in full the nature and extent of welfare work maintained by employer, such, for instance, as schools, churches, libraries, etc.

8-*j*. Set forth any other relevant facts under this inquiry, such, for instance, as accident or sick insurance provided by the employer.

9. *Relative to securing immigrants:* Set forth such information as can be secured relative to the manner in which immigrants were secured. This is not an inquiry as to contract labor, and questions relating to that subject should not be asked.

9-*a*. *Where secured:* State what proportion of the immigrants of each race came directly from their native land, from the vicinity in which the establishment is located, and also from other sections of the United States.

9-*b*. *Families:* State whether families were with immigrants at the time of coming, or whether the immigrants were single men.

9-*c*. *Method*: Indicate in what way the immigrants were secured, and state as definitely as possible whether secured by employers personally, through labor agents, or through padroni; and if they were secured from labor agents, give the name and address of such agents.

9-*d*. *Discrimination for or against immigrants:* State whether at the time immigrants of each race were first employed, or at any subsequent time, there was any discrimination for or against them in employment, wages, or housing. If discrimination is found, state details.

9-*e*. Give any other facts relative to this topic.

10. *Effect of employment of immigrants in this establishment upon economic position of former employees:* Determine as definitely as possible the effect which the employment of immigrants has had on the economic position of former employees. Indicate the answer to each of the inquiries by letter on the left-hand margin of the page.

10-*a*. *Brief history, by races:* State briefly the history of employment, by races. This should include the years each race has been employed; the reason, if possible, for each race coming; the displacement of races; and the economic progress of each race.

10-*b*. *Reasons for change:* State the reasons for change in races.

10-*c*. *Friction between old employees and immigrants:* Indicate whether there has been at any time any friction between old employees and immigrants, or between various races of immigrants; also state the nature and extent of such friction.

10-*d*. *Effect of competition:* State the effect, if any, which the competition of immigrants has had upon the efficiency of old employees; whether such competition has caused them to be more industrious, more regular in their work, more efficient, etc.

10-*e*. *What displaced employees have done:* State as definitely as possible what employees who have been displaced by immigrants have done; whether they have moved to other localities, and, if so, what occupation they have entered; whether they have remained in the same locality and have entered better-paid occupations; or whether they have remained in competition with immigrants, and, if so, the effect upon their standards of living, etc.

10-*f*. *Changes in wages:* State whether the coming in of immigrants has tended to reduce wages or to prevent wages advancing in occupations in which immigrants are engaged as rapidly as in other occupations. The agent should, of course, bear in mind that immigration is but one of many things which may have operated to retard advancement in wages.

10-*g*. *Changes in hours:* State what effect, if any, the coming of immigrants has had upon hours of work.

10-*h*. *Changes in employment of women:* State what effect, if any, the coming of immigrants has had upon the employment of women, particularly whether the competition with immigrants has resulted in the women of the races previously employed being compelled to secure employment.

10-*i*. *Changes in employment of children:* State what effect, if any, the coming of immigrants has had upon the employment of children, particularly whether the competition of immigrants has resulted in the children of the races previously employed being compelled to secure employment.

10-*j*. Give any other facts relating to this topic.

11. *Effect of employment of immigrants upon industrial organization and methods:* Indicate under this topic the effect which the employment of immigrants has had upon the industrial organization and methods of the establishment. Indicate the answer to each of the inquiries by letter on the left-hand margin of the page.

11-*a*. *Aided in development of new industries:* State whether or not immigrants have aided in the development of new industries in this community, and, if so, state specifically the industries, what they are, and the extent to which they have contributed toward developing them.

11-*b*. *Effect on method of work:* State whether or not any changes have been made in the method of work by reason of the employment of immigrants.

11-*c*. *Effect on industrial organization:* State whether or not any changes have been necessary in the organization of the working force by reason of the employment of immigrants, such, for instance, as greater or less supervision, introduction of the gang system, etc.

11-*d*. *Effect on use of machinery:* State as definitely as possible whether the employment of immigrants has resulted in the introduction of machinery or in the use of hand labor rather than machinery.

11-*e*. Give any other facts relating to this topic.

12. *Relations between the different races employed:* Under this topic set forth as clearly as possible the relations between the different races which have been employed by this establishment. Specify in every case by races. Indicate the answer to each of the inquiries by letter on the left-hand margin of the page.

12-*a*. *Segregated at work:* State whether or not the different races are segregated at work.

12-*b*. *Segregated in boarding places:* State whether or not the different races are segregated in boarding places.

12-*c*. *Segregated in sleeping places:* State whether or not the different races are segregated in sleeping places.

12-*d*. *Segregated in housing:* State whether or not the different races are segregated in housing.

12-*e*. *Association with each other:* State whether or not the immigrant races associate freely with each other, or to what extent they do associate.

12-*f*. *Association with natives:* Indicate whether or not the different immigrant races associate freely with the natives, or to what extent they do associate.

12-*g*. State any other facts relative to this topic.

13. *Progress of immigrants:* Under this topic state as definitely as possible the progress of the various races which have been employed in this establishment and specify by races. Indicate the answer to each of the inquiries by letter on the left-hand margin of the page.

13-*a*. *Working upward in the scale of occupations:* State whether or not the immigrants are working upward in the scale of occupations, and, if so, to what extent.

13-*b*. *Becoming foremen:* State whether or not the immigrants are becoming foremen, and state clearly whether they are doing the actual work of foremen, or whether they are made foremen by reason of the influence they have in securing employees of their own races, or because of their ability to serve as interpreters.

13-*c*. *Knowledge of English:* State what progress the immigrants are making in the knowledge of English.

13-*d*. *School attendance:* State to what extent immigrants are attending schools.

13-*e*. *Civic interest, etc.:* State to what extent immigrants who are naturalized are availing themselves of the rights of citizenship.

13-*f*. State any other facts relative to this topic.

14. *Employment of women and children:* Under this topic set forth any *experience* which the employer has had as to the tendency of each race toward securing employment for their women and children. It is sometimes claimed that certain races make every effort to secure employment for their women and children, and it is desired to secure reports from employers who have had experience along these lines.

15. *Relative efficiency of immigrants and natives:* Under this topic compare as definitely as possible the relative efficiency of each of the various races and of natives in all of the occupations in this establishment where such comparison is possible. Use complete sentences in making the comparison in order that the agent's thought can be clearly understood. Indicate the answer to each of the inquiries by letter on the left-hand margin of the page.

15-*a*. *Industriousness:* State comparative industriousness.

15-*b*. *Attentiveness:* State comparative attentiveness.

15-*c*. *Adaptability:* State comparative adaptability.

15-*d*. *Tractability:* State comparative tractability.

15-*e*. *Supervision:* State comparative requirements as to supervision.

15-*f*. *Sobriety:* State comparative sobriety.

15-*g*. *Progressiveness:* State comparative progressiveness.

15-*h*. *Use of English as affecting efficiency:* State the extent to which the use of English, or the lack of it, affects efficiency.

15-*i*. State any other matters relative to efficiency.

16. *Order of preference among races employed:* Specify by occupation the employer's order of preference among the races employed, including natives.

17. *Employer's opinion of the second generation:* Specify by races the employer's opinion of the second generation of immigrants based upon his *experience*.

18-*a*. *Nationality and race of employer:* State the nationality and race of employer, and, if foreign born, the number of years in the United States.

18-*b*. *Nationality and race of persons furnishing information:* Enter the name, position or occupation, country of birth, race, and years in the United States for each of the persons furnishing information to the agent.

19. Under *Remarks* the agent should state his (the agent's) opinion of the effect of employment of immigrants upon:

a. Sanitary conditions;

b. The use of safety devices;

c. General treatment of the employees in the paternal way, and also general treatment as to discipline.

Enter also under *Remarks* any matter which may be of value and which has not been called for by the specific topics and questions in the schedule.
